2. Authorization for this Examiner's amendment was given in a telephonic interview with Mr. Apley on July 18, 2008.

3. The application has been amended as follows:

#### **In the claims:**

Claim 236, line 8: "a dormant state" has been changed to --the dormant state--.

Claim 237 has been cancelled.

Claim 238, line 8: "a dormant state" has been changed to --the dormant state--.

Claims 239-241, 244, 245, 247 and 252 have been cancelled.

### ***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance of claims 236, 238, 243, 246, 249 and 253.

Art Unit: 2841

For independent claim 236 the prior art of record does not disclose or clearly suggest a device for opening a shell to release or admit a substance, the device comprising:

a shape memory material activator normally unresponsive to temperature changes thereby creating a dormant state; and

means for deforming the activator in situ by only a single irreversible action,

whereby the device is transformed from the dormant state to an active state

in combination with the remaining limitations of the claim.

For independent claim 238 the prior art of record does not disclose or clearly suggest a method for opening a shell to release or admit a substance, the method comprising the steps of:

providing a shape memory material activator normally unresponsive to temperature changes thereby creating a dormant state; and

deforming the activator in situ by only a single irreversible action,

whereby the device is transformed from a dormant state to an active state

in combination with the remaining limitations of the claim.

For independent claim 243 the prior art of record does not disclose or clearly suggest a self-propelled substance delivery system, comprising:

work enablers operatively associated with the activator; and at least one track configured with traction means, wherein the work enablers engage the traction means to self-propel the activator therealong when the activator is subjected to temperature cycling and thereby deliver at least the substance

in combination with the remaining limitations of the claim.

For independent claim 246 the prior art of record does not disclose or clearly suggest a shape memory material activated device, the device comprising:

Art Unit: 2841

a shape memory material activator variably deformed, wherein different parts of the activator respond to different temperatures to create a path through the at least one shell in combination with the remaining limitations of the claim.

For independent claim 249 the prior art of record does not disclose or clearly suggest a shape memory material activated device for allowing the passing of a substance through a shell, the device comprising:

a pressure generator operatively associated with the shell and configured to undergo volume cycling with temperature cycling of the shape memory material activator, whereby the substance passes through the shell with one half of the temperature cycle of the shape memory material activator and the shell undergoes an irreversible volume change with the other half of the temperature cycle

in combination with the remaining limitations of the claim.

For independent claim 253 the prior art of record does not disclose or clearly suggest a system of shape memory material activated substance delivery devices, the system comprising:

each device comprising at least one shell containing at least a substance and a shape memory material activator, said activator being normally unresponsive to temperature changes thereby creating a dormant state,

means for deforming the activator in situ by only a single irreversible action,

wherein said activator is configured to release at least the substance at a predetermined temperature,

in combination with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2841

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
